Reference Letter

We are delighted to provide this reference letter to LLC "Synergy Construction" who has constructed bottling factory for us during 2016-2017 years.

Bottling factory project was designed and constructed in Guria, Chokhatauri region, Georgia. In village Nabeghlavi, nearby to river Gubazeuli. Project consisted of warehouse, bottling factory, administrative building including hotel with 14 guestrooms, utility building, water borehole building, wastewater system, check point, car and truck parking areas, the bridge over the river Gubazeuli and gabion river protection system.

All the structures were constructed with the high quality construction materials and was satisfactory for the European standards and regulations. Finishing materials were considered to be as A class. Bottling factory facade system was the first facade type system which was implemented in whole Georgia. The majority of Construction and interior finishing materials had been purchased from different leading countries, such as Switzerland, England, Poland, France, Austria, Germany, Italy and etc. Nabeghlavi water bottling factory now operates as an A class factory building which is fully equipped with the modern technologies.

In our dealings with LLC "Synergy Construction" they have always been extremely professional. We were satisfied with the high quality of their workmanship and their ability to adhere to our tight schedules. They completed their work expertly and in a punctual manner.

LLC "Synergy Construction" has demonstrated its ability to meet our company's high standards for the rigorous construction schedules. Their works have been performed in a timely and professional manner. Their willingness to quickly respond to all our concerns during field works, Synergy construction was very flexible to our revision requests during construction phase and took our desires and managed to change project fast and in a high quality manner, so it did not influence general timeline. Project budgeting was very transparent to us as a client, which was a very good sign of open collaboration. The company has proven their commitment and excellent reputation for customer service.

Based on our experience, we would gladly recommend LLC "Synergy Construction" to any other investors in the construction industry. We consider LLC "Synergy Construction" to be among the most qualified construction companies.
